

ABHIRAMA K V

Fullstack Developer

Bangalore | 6238400074 | abhiramakv@gmail.com | [Linkedin](#) | [Portfolio](#) | [Github](#)

Profile Summary

Detail-oriented QA professional with 2 years of experience in manual and automation testing, transitioning into full-stack development. Skilled in the MERN stack, SDLC, and debugging, with hands-on experience building scalable web apps. Passionate about coding and eager to contribute to impactful tech projects.

Technical Skill

Programming Languages:	Javascript, HTML/CSS
Database:	MongoDB, MySQL
Developer Tools:	VS Code, Jira
Frameworks:	React, Node.js, Express
Additional Skills:	DSA, OOPS, Linux
Soft Skills:	Communication, Teamwork

Experience

Cognizant

June 2023 - Present

Quality Assurance Engineer

Bangalore, Karnataka

- Conducted both manual and automated testing to ensure the quality and reliability of web and mobile applications.
- Designed and executed test plans, test cases, and test scripts, leading to improved defect detection and overall product stability.
- Collaborated with cross-functional teams in Agile environments to ensure timely and quality releases.
- Logged and tracked bugs using Jira, contributing to efficient issue resolution cycles.

Projects

Qtify | [View](#) | *React.js, Material UI, Swiper, Condition Rendering, Component Reusability*

- Created modular UI components including Cards, Carousels, and Buttons optimizing for reusability across various sections of the application.
- Designed a reusable button component with unique styling, adaptable for various functionalities across the application.
- Implemented conditional rendering logic to display filter options within the Section component exclusively in the Songs section.
- Created a Filters component with Material-UI Tabs for seamless user interaction, integrated Axios for fetching genre options and song data, and handled errors effectively.

Qkart | [View](#) | *React.js, Event Handling, Forms, React Hooks, REST API, Error Handling*

- QKart is an E-commerce application offering a variety of products for customers to choose from.
- Implemented the core logic for authentication, shopping cart and checkout
- Improved UI by adding responsive design elements for uniform experience across different devices
- Used React Router library to set up routes in the application and redirect customers to appropriate pages

Xboard | [View](#) | *HTML, CSS, Bootstrap, JavaScript, JQuery*

- Improved UI by setting each section as an accordion and including image carousels.
- Invoked API to fetch the necessary data from flipboard's rss feed and integrate that into the web page
- Implemented desktop and mobile views with reference to the Figma design

Education

BE in Electronics and Communication

St Joseph Engineering College Vamanjoor

June 2018 - August 2022

7.0 CGPA

Certification

Fellowship in Full Stack Development – [Crio.do](#)

Received certification upon successful completion of an industry-ready full stack development program focused on real-world projects and hands-on experience.
